

[Change notice] How to get a DVS license

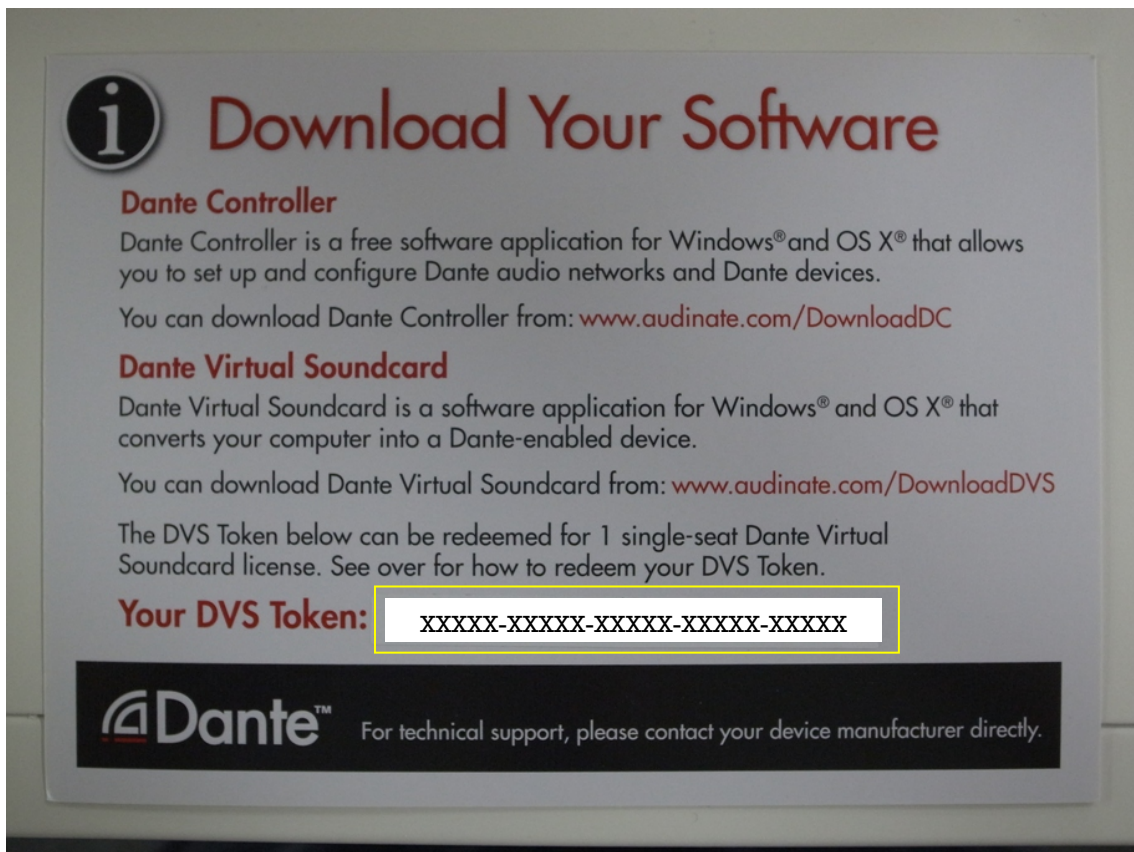

The way of getting a DVS (Dante Virtual Soundcard) license with Dante-MY16-AUD has been changed as follows:

【Previous】

Please use the serial number of the product.

【New】

Please use "Your DVS Token" on the bundled sheet "Download Your Software".

i **Download Your Software**

Dante Controller
Dante Controller is a free software application for Windows® and OS X® that allows you to set up and configure Dante audio networks and Dante devices.
You can download Dante Controller from: www.audinate.com/DownloadDC

Dante Virtual Soundcard
Dante Virtual Soundcard is a software application for Windows® and OS X® that converts your computer into a Dante-enabled device.
You can download Dante Virtual Soundcard from: www.audinate.com/DownloadDVS

The DVS Token below can be redeemed for 1 single-seat Dante Virtual Soundcard license. See over for how to redeem your DVS Token.

Your DVS Token:

Dante™ For technical support, please contact your device manufacturer directly.

You can find some information of how to redeem your DVS Token on the back side of this sheet.

1. Go to the following URL : www.audinate.com/RedeemDVSToken
* You will need to log in, or register an Audinate website account id you don't have one already.
2. Type your token into the **DVS Token** text field.
3. Enter the text you would like to appear on the licensing screen of the Dante Virtual Soundcard application (for example, 'John Smith' or 'Bondi Highschool').
4. Click **Next**.

Your license ID will be displayed. Record your license ID and store it somewhere safe. You can however log into the Audinate website to view your license ID at any time (at **My Account > My Products**).

To activate Dante Virtual Soundcard, start the application, and type your license ID into the text field on the Licensing tab, then click **Activate**.

i Redeem Your DVS Token
